ELIJAH TETTEH

Tema, Greater Accra Region, Ghana | 0508508520 | tettehelijah071@gmail.com

PROFESSIONAL SUMMARY

Dedicated and results-driven Educator with a strong track record of leadership, team collaboration, and classroom management across multiple student age groups. Adept at breaking down complex concepts in Creative Arts, Career Technology, and STEM/Robotics through practical, engaging methodologies. Recognized for achieving outstanding student performance metrics and supervising innovative microcontroller automation projects.

CORE COMPETENCIES & SOFT SKILLS

- **Classroom Management & Leadership:** Creating structured, supportive environments that foster student participation and team collaboration.
- **Excellent Communication & Public Speaking:** Skilled at breaking down practical and technical ideas clearly for students and school teams.
- **STEM & Technical Instruction:** Experienced in teaching robotics and practical sciences using Arduino, BBC micro:bit (MakeCode), and hardware kits.
- **Curriculum Delivery & Design:** Developing concise, space-efficient lesson materials and balanced objective/subjective testing systems.

PROFESSIONAL TEACHING EXPERIENCE

STEM & Robotics Teacher | Green Talent International School

August 2026 – Date

- Instructing practical STEM and robotics lessons focused on foundational coding, electronics, and microcontroller applications.
- Utilizing interactive learning strategies to keep young cohorts actively engaged during laboratory and project sessions.

Creative Arts & Career Technology Teacher (JHS) | Arise Bethel Academy (Klagon) *2023*

– Date

- Successfully prepared two consecutive batches of junior high school candidates for the **BECE**, securing a **100% pass rate** for the **2024 and 2025** cohorts.
- Designed balanced educational assessment layouts combining multiple-choice and subjective questions to maximize test effectiveness while minimizing printing costs.
- Maintained strong relationships and continuous progress updates with parents and guardians to build a collaborative learning environment.

SUPERVISED STEM PROJECTS

- **Student Automation Models:** Coordinated and supervised a student engineering cohort to construct physical automation prototypes, including fully functional student-built smart bins and automated toll gates using microcontrollers.

EDUCATION, CERTIFICATIONS & LANGUAGES

University of Cape Coast (UCC) – Ongoing Level 200 Accounting Coursework

Project Management Professional (PMP) Certification – FEFOGHANA (NTC Service Provider)

Certificate in Teaching Students with Diverse Needs – Alison

Language Fluency: English (Fluent), Dangme (Fluent), French (Working Understanding / Conversational)
